Dear Friends and Supporters,

November 2018

Thank you, thank you, thank you, for your continued support making our 2018 mission trip to Uganda unforgettable. After 6 years of planting and watering we witnessed one blessing after another blessing! With so many moving parts coming together in uncommon order it just seemed supernatural. And of course it was:

With the help of our partners we began construction of Faith Tabernacle church in a Moslem area of Kampala and held its first healing service with over 70 people in attendance.

After 5 years of operation Life Mercy School and Orphanage qualified and received their Certificate of Operation from the Kampala District Department of Education. Where many schools are being closed by the government for lack of qualification Life Mercy is growing!

We had the good fortune to meet with a representative from the Rotary and lay out the plans for a new water system at the school/orphanage. Once we receive the details and costs we plan to meet with the local Rotary organization and apply for funding. Water is so precious in Uganda and other African countries. We are so encouraged that Rotary would even consider providing financial support!

We were delighted to received notice our ministry had qualified as a NGO. This will allow us to bring necessary equipment and materials into Uganda without having to pay duty which can be as much as 100% of cost.

On this years' mission trip we watched them place many roof panels on the new church building under construction at Prayer Palace. They now have ½ of the main seating area covered and free from rain allowing them to resume services. This is a huge undertaking for their church and we hope we can continue to provide financial support.

In addition to their radio station we have been working closely with Channel 21 in Louisville and personnel at Prayer Palace to bring forward a new TV station in Kampala We met with engineers established a plan and financial needs to meet this objective and operational qualification. Once in operation we will be broadcasting to the entire country and with bleed-over touch 5 neighboring countries reaching an audience of 100 million!

We have seeded into 2 sewing businesses which intend to utilize both new and experienced sewing machine operators. We believe they have all the ingredients to be successful and fruitful.

To all of you who supported us financially and prayed for us, you have made this possible. We thank you and pray a 100 fold blessing over you and God's favor. We will never know how many lives have been healed, changed and saved. But rest assured God does and it's all part of His economy. How privileged and blessed we are to be a part of it. To God be the Glory. Although there was so much accomplished by this trip, we can see there is still much God wants to do and so we look forward to next year. PTL!

Blessings
